

SOCIAL MEDIA USE POLICY

Definition of Social Media

Social media is defined as any web app, site, or account offered or used by the Library that facilitates the sharing of opinions and information about library-related subjects and issues. Social software includes such formats as blogs, listservs, websites, social network pages, posts to community reviews, and patron rating of library materials.

Policy

The Library's use of social media is intended to create a welcoming and inviting online space where library users will find useful and entertaining information, and can interact with Library staff and other library users. The Library recognizes and respects differences in opinion, and welcomes comments, posts, and messages.

The Library reserves the right to monitor content and to remove messages and postings that it deems, in its sole discretion, to be unlawful, inappropriate, or off topic. The Library is not responsible or liable for content posted by any user in any social media forum.

By posting content, the user agrees to the Library's Policies. The user recognizes that their comments are not the views of the Library and therefore agrees to indemnify the Library and its officers and employees from and against all liabilities, judgments, damages, and costs incurred by any of them which arise out of or are related to the posted content. Parents are responsible for their minor children's use of the Internet.
